Celebrating 41 Years

Greetings!

We want to assure you that we take the health and well-being of our community, customers, and associates very seriously. Like you, we're closely monitoring the quickly developing effects of the Coronavirus (COVID-19) pandemic.

To help prevent the spread of COVID-19, we will practice social distancing. We would like you to know we are deemed as an essential service, so it is business as usual with extra precautions in place.

We are all in this together. We will continue to monitor the COVID-19 situation and will follow guidance from public health officials and government agencies, so we can continue to support our customers and communities as needed.

We would love to hear from you. Contact us today, or [visit our website](#) to learn more.

Lift Master Booms

Unique performance, convenience, and safety features are built into every Lift Master Boom. Fabricated from structural steel with welding to meet AWS creates a rugged and durable boom that will provide long term service. Telescopic units come with an infinitely adjustable locking screw (except orbit booms which feature a locking decent). Fork pockets for 4,000 pound uniform capacity models measure 7½"W x 2½"H usable on 24" centers. Usable fork pockets are 7½ "W x 2¼ "H for 6,000 and 8,000 pound uniform capacity models. Optional fork pocket centers available, contact factory. A safety restraint secures the boom to the fork truck for safe operation. Each unit includes two lifting hooks.

Receiving instructions:
After delivery, remove the packaging from the product. Inspect the product closely to determine whether it sustained damage during transport. If damage is discovered during the inspection, **immediately** record a complete description of the damage on the bill of lading. If the product is undamaged, discard the packaging.

NOTE:
The end-user is solely responsible for confirming that product design, installation, use, and maintenance comply with laws, regulations, codes, and mandatory standards applied where the product is used.

41 years ago Lift Line Machinery Ltd. was started with the following **Customer Bill of Rights** :

Our Customers Have the Right to Expect:

- timely service as viewed from his or her perspective;
- service at a reasonable expense;
- courtesy, respect and empathy regardless of the situation;
- us to listen so as to understand their problems;
- communicate clearly and concisely with them;
- us to fix it right the first time and provide zero defects;
- expect all of our people to be qualified;
- us to be dedicated to go the extra mile;

- personalized service that addresses his or her specific needs;
- cleanliness in whatever our service for him or her might be.

We have stuck to this Customer Bill of Rights every day since 1979.

We would love to hear from you. Contact us today, or [visit our website](#) to learn more.
